FORMALITIES LETTER

Date Mailed: 04/25/2002

NOTICE TO FILE CORRECTED APPLICATION PAPERS

Filing Date Granted

This application has been accorded an Application Number and Filing Date. The application, however, is informal since it does not comply with the regulations for the reason(s) indicated below. Applicant is given **TWO MONTHS** from the date of this Notice within which to correct the informalities indicated below. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a)

The required item(s) identified below must be timely submitted to avoid abandonment:

- A substitute specification in compliance with 37 CFR 1.52 because:
 - Papers contain improper margins. *Each sheet must have a left margin of at least 2.5 cm (1") and top, bottom and right margins of at least 2.0 cm (3/4")*

*A copy of this notice **MUST** be returned with the reply.*

SUMMARY OF THE INVENTION

This new device can assist neon gas tubing sign and other glass signs in the future. It can be installed when glass is being manufactured to make window glass for any type of business or homes. It will be installed on the inside of the first layer of glass, covered by the second layer of glass with a wire connection attach to glass. This new device could be made of an illuminate film it will be activated by a microchip, inverter or (?) to display manes different type of phrase and a wire connection and powered by a power outage. Using this device you can illuminate any letters and numbers from inside or glass. The words open and close will illuminate between window glass by using one of these illuminate film. Just imagine, your home can be found easier by an ambulances, fire departments, patrol cars, cabs driver, repairpersons and delivery person can depend on illuminate signs at day or night. Business can advertisement different phrase inside of windows glass, using the illuminate film.

BRIEF DESCRIPTION OF THE DRAWING

- Fig 1. Displays two pieces of glass, inner layer 1A and out layer 1B before glass is made as one whole glass.
- Fig 2. Displays microchip or inverter 2, illuminate film 3, back panel 4, EL, LED, OLED and liquid crystal 5, illuminate film 6 and wires connection 7.
- Fig 3. Show microchip or inverter 2, illuminate film 3, 4, 5 and 6 with wire connection 7 and neon gas tubing 8.
- Fig 4. Displays neon gas tubing 8 and paper signs 9.
- Fig 5. Basically same as fig 4, advertising new displays inside a windows glasses frame only notice wind activated.
- Fig 6. Same as fig 4 and 5 is advertising new display.
- Fig 7. Displays new home device with illuminate letters and numbers wire connection 7 inside window, attach to frame of house, microchip or inverter 2 beside window glass and 3, 4, 5 or 6 showing illuminate numbers and letters wind activates.

DESCRIPTION OF THE PREFERRED EMDODIMENT

Fig 1. Displays two pieces of glass to make one whole glass for window glass, {inside glass 1A and outside glass 1B}. Fig 2. Shows microchip or inverter 2, to operate 3, illuminate film inside of window glass, 4 back panel inside window and EL, LED, OLED and LC 5 and 6 inside window glass and wiring connection 7. Fig 3. Show neon gas tubing 8 at top and microchip or inverter 2 displaying illuminate film 3 inside window glass, also displaying back panel 4 inside window glass, LC, EL, LED and OLED 5 and 6 also displays inside a window glass along with wiring connection 7. Fig 4. Show basically how advertising is done today by using neon gas tubing 8 and paper signs 9. Fig 5. Basically the same as fig 3 there's no limitation of what a business can advertise inside window glass, able to change phrase for new displays by using 2, 3, 4, 5, 6 and 7. Fig 6. Basically the same as fig 5 now restaurant can advertise as for as buffets special are served daily by using this new device 3, 4, 5 and 6 to illuminate inside window glass along with microchip or inverter 2 to program illuminate letters and numbers along with connection 7. Fig 7. This device is also for homes as homes address being hard to locate or see at night time, by using this device 3, 4, 5 and 6 you can now illuminate your home address when needed
